EXAMINER'S COMMENT / AMENDMENT

Election/Restrictions

1. Applicant's election of Group I (claims 9-24) in Paper filed 6/23/2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 70-98 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to nonelected inventions, there being no allowable generic or linking claim.

Election was made **without** traverse in Paper filed 6/23/2004.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

4. Reasons for Examiner's Amendment:

Since this application is in condition for allowance except for the presence of the claims drawn to nonelected inventions, claims 70-98 directed to inventions non-elected without traverse in Paper filed 6/23/2004 have been cancelled. (see MPEP 821.02)

Claim 15 has been amended to correct an obvious typographical error.

The Abstract has been amended to more clearly point out the claimed invention.

The specification has been amended to reflect the continuity information for the present application.

5. The application has been amended as follows:

Claims 70-98 have been cancelled.

In claim 15,

line 1, "chip" has been changed to --preform--.

In the Abstract,

line 4, before "material", the following has been inserted:

-- substituted cyclodextrin --.

In the specification,

page 1, before line 1, the following has been inserted:

-- This Application is a divisional of Application No. 10/163,817, filed June 5, 2002, now U.S. Patent No. 6,709,746. --

6. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or suggest a polyester preform or beverage container comprising a polyester containing the recited substituted cyclodextrin compounds having the specified degree of substitution and in the specified amount. Specifically, HIRSENKORN (US 5,633,368) fails to disclose the recited cyclodextrin with polyester resin; the WOOD ET AL references fail to disclose the recited degree of substitution.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vivian Chen whose telephone number is (571) 272-1506.
